

TUTOR CERTIFICATION PROGRAM

THE BATA CERTIFICATION PROGRAM IS A CORE PILLAR OF THE ORGANIZATION

It is the perfect tutor training program for after school program managers, home school networks, high school and college students, professional and parent volunteers. Included within the certification program are K-12 math and English Language Arts academic ability exams. There are optional academic competency exams for individuals who have specific areas of academic expertise i.e. Advanced Mathematics, AP/IB Courses, Sciences, Physics and Foreign Languages.

As noted by the U.S. Department of Education, tutoring provides students with immediate access to positive and corrective feedback, Social Emotional Learning (SEL) support, academic intervention and enrichment opportunities. Additional research shows students with access to tutoring have better school attendance, are more motivated, less frustrated and display improved interpersonal skills.

“Tutoring provides students with immediate access to positive and corrective feedback”

THE NECESSITY OF CERTIFIED TUTORS IN THE ERA OF COMMON CORE STATE STANDARDS

As the majority of the United States shifts to the era of Common Core State Standards, the demand for tutoring is increasing dramatically. Success of Common Core State Standards will require more than new books, technology, strategies and curriculums. Common Core State Standards success will require additional student and teacher support. There will be a *needed increase* in academic time. There will also be a *significant decrease* in the number of parents who are able to support their children academically. Tutoring has become a societal necessity versus a luxury. Certified tutors help students transition from the skill and drill to will and skill.

THE BENEFITS OF BAY AREA TUTORING ASSOCIATION CERTIFICATION

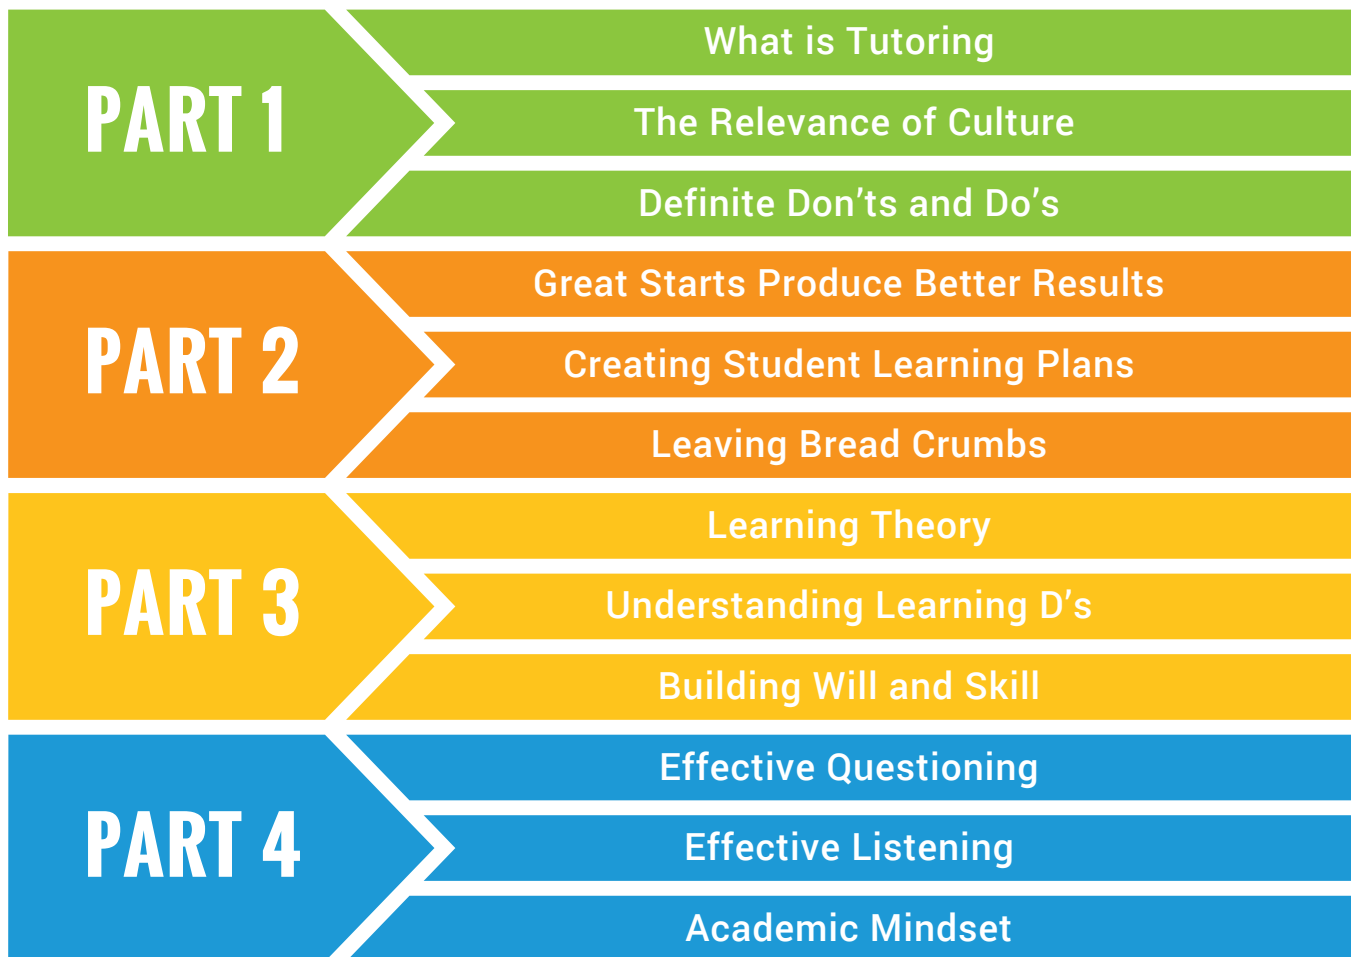

Whether you are an experienced tutor, or just getting started, certification displays a commitment to excellence. Being “certified” shows potential colleges, clients and employers that you possess the ability, knowledge and training needed to become manager or organizational leader.

As a form of part time employment, **College Students, Home School Teachers, Existing Tutors, available Professionals and Retirees** will have the opportunity to mentor, share life and academic experiences while generating income higher than minimum wage.

OUR PROGRAMS

Our tutor certification program is comprised of **12 modules**. Each requires approximately **120 minutes** of classroom instruction. Full certification requires the completion of all modules.
